## **AMISH CORN FRITTERS**

4 lg. ears corn  
2 eggs, separated  
2 tbsp. all-purpose flour  
1 tbsp. sugar  
Salt and freshly ground pepper  
Unsalted butter

Cut the kernels from two ears by standing each ear upright on a plate, carefully slice beneath the rows in a steady downward motion. With the back of the knife, scrape the cobs to extract the juice. Grate the kernels from the remaining 2 ears, cutting off the kernels at just half their depth and scraping off pulp on the cob. Put all the corn kernels, pulp and juice into a bowl. The mixture will resemble scrambled eggs. Beat the egg yolks in a large bowl until light. Beat in the flour, sugar, salt and pepper to taste. Stir in the corn. Beat the egg whites in a large bowl until stiff. Fold them into the corn mixture. Heat a heavy skillet or griddle over medium heat and grease it lightly with butter. Drop the batter by small spoonfuls onto the skillet and cook until golden. About 30 seconds each side. Transfer the cooked fritters to a lightly buttered serving platter and keep them warm in a low oven while cooking the remaining fritters.

# Getting & Staying Healthy - Naturally!

The human body is a highly complex mechanism. Body or physical health refers to the overall condition of that system. We say that **optimal physical health** is achieved when the body is free from disease, abnormality and injury, and is able to function well.

However, often the body does not function well when it is attacked by environmental elements, genetic malfunction, injury, and biological intrusions. These factors can result in a multitude of ailments that affect the thyroid and adrenal glands, as well as the liver and pancreas. They can cause damage to the respiratory system (bronchitis, asthma, etc), hinder digestive processes, and even cause cancer.

Whether you're a parent or child, man or woman, young or old, staying healthy is very important. **Maintaining an individual's overall wellbeing** can involve treating everything from colds and flu, to cuts and scrapes, and sometimes even embarrassing conditions like bad breath, hemorrhoids, or body odor.

Keeping the right tools on hand (both treatments and information) will **prevent frustration and help in the time of crisis**; even if the crisis is just a bruised knee from a bicycle fall, a sore elbow from too much tennis, the sniffles, or a quick immunity boost in hopes of avoiding the seasonal cold.

At Native Remedies you will find a comprehensive set of herbal remedies to help you manage and optimize your physical health – naturally and safely.

### ***Two Important Differences in Native Remedies Products***

We use the **Full Spectrum Method** of extraction to create our products. Many *so-called natural remedies* are manufactured using standardized extractions which – although often cited as being more scientific method – is not approved by the manufacturers of holistic medicines.

To us, it makes little sense for companies to go the natural route, while being unable to guarantee that their product is free of contamination with chemicals known to be harmful to health! Using the Full Spectrum Method helps us to maintain the integrity, balance and therapeutic effect of herbs with the least risk of side effects or harm to your health!

We utilize a unique **dual-modality approach** to complete holistic wellness because we know that natural medicine works best in combination (herbal, homeopathic, flower essences and tissue salts) for fast relief and long-term care. Our approach provides a complete solution by offering OTC homeopathic remedies for relief of symptoms as well as compound herbal remedies for complete support of your physical, emotional and mental well-being.

While each of our natural remedies works well on its own to address a specific body function or relieve a particular symptom, we believe that by combining our herbal and homeopathic remedies you will find a complete solution that is safe and highly effective.

### **The importance of Omega-3 fatty acids**

Scientists have established the effectiveness of Omega 3 in a number of health areas, including your Heart, Brain, Joints, Skin, Immune system, Vision, and Digestion. Like any product on the market today there are 'good fish oils' and there are 'bad fish oil'!

With a bad one you may be unwittingly introducing substances into your body that you DO NOT want... such as Mercury and PCB's for example. We impose tougher standards on the purity of our fish oil than any other known manufacturer. DHA is the most important fatty acid in the human brain.

High in DHA and proven to be pure and free of contaminants the Xtend-Life brand is considered to be the 'Rolls Royce' of concentrated Omega 3 fish oils at an affordable cost and has been enjoyed by thousands of customers in more than 40 countries for the last eight years.

### **Don't forget a good multi-vitamin!**

Xtend-Life Multi-Xtra is a natural multi vitamin/supplement using only the finest natural vitamins available on the market today. Some manufacturers call the vitamins they use in their products 'whole food' vitamins, but that is somewhat misleading.

They are natural but they are grown using bio-technology and are not extracted directly from plants. What is important is that we do NOT use vitamins which are derived from petrochemicals. Multi-Xtra contains 48 bio-available ingredients.

Unlike a 'normal' multi it contains much more than just a basic vitamin/mineral mix. Multi-Xtra is probably the best multi vitamin/mineral supplement in the world and undoubtedly provides the best value for money available anywhere.
