All-Star Fudgy Baseballs and Bats

1 c Carob powder
1 c Water
1/4 c Honey
1/4 c Peanut butter (smooth or cru
3/4 c Wheat germ
3/4 c Rolled oats
2 tb Dry milk powder
1/2 c Unsweetened shredded coconut
1 ts Cinnamon (optional)
1/2 ts Grated orange rind (optional)

In a small saucepan, combine the carob and water. Bring to a boil over low heat, stirring constantly to prevent scorching. Add the honey and peanut butter and continue cooking for about 5 minutes, or until syrup is smooth and slightly thickened.

In a large bowl, mix together the wheat germ, oats, milk powder, coconut, cinnamon, and orange rind (if desired).

Pour about one cup of the carob syrup over the dry mixture, or as much as is needed to make a pliable, dough-like consistency. Store the remainder in the refrigerator and use as an icing or to make great milk shakes.

Pinch off pieces of the dough and roll each piece between your palms into 2-inch-long tubes about the circumference of a fountain pen, tapered at one end in the shape of a baseball bat. Roll the rest into marble-sized balls.

Butterfly Bites

2 Stalks of celery
12 lg Three-ring pretzels
6 tb Peanut butter or cream cheese
About 18 raisins or currents
12 Slivered almonds or enoki mushrooms

Wash the celery. Using plastic knives, cut the celery into thirds. Fill each celery stalk with one tablespoon of either peanut butter or cream cheese. For the wings, gently push 1 pretzel into the filling, running parallel to the length of the celery stick. Do the same on the celery's other lengthwise side. Arrange the raisins or currents as the eyes, nose and mouth. For antennae, push the slivered almonds or mushroom cap into filling. If using mushrooms, arrange the spaghetti-like mushroom tips upward, like an antenna.

Chocolate Spiders version #1

4 cups semisweet chocolate baking chips

Melt chocolate chips in top of double boiler. Let stand over the water until water is cool, about 10 minutes. Place wax paper on cookie sheet. Pour chocolate into a pastry bag that is fitted with a 1/8-inch or 1/4-inch tip. Squeeze chocolate onto wax paper in the shape of spiders. If chocolate is runny it needs to be cooled longer. Chill the spiders for about 10 minutes. When hard peel off wax paper. Store in refrigerator laid flat.

Chocolate Spiders version #2

12 oz Twizzlers; chocolate flavor
4 oz Milk chocolate candy melts

Cut twizzlers into 1 1/2" pieces. Slice each piece in half lengthwise. On waxed paper place 4 legs (pieces) on each side and then drop 1 tsp melted candy in middle for body. Use a toothpick to smooth to uniform circle and connect all candy pieces. Cool completely before removing from waxed paper.

Make the pancakes in advance and set them in oven to keep them warm. Poach or fry the eggs. To assemble the faces, place the pancakes on a plate, with eggs for eyes, orange slices for ears and mouth, and a tomato half for the nose.

NOTE: For a lighter meal, omit the eggs and use apricot or peach halves for eyes and half a fresh cherry for a nose. Or, omit pancakes, assemble eggs directly on plate, and add a smile made from chopped, sauted potatoes.

Daisy Apple

2 Tbs. raisins
2 Tbs. crunchy or creamy peanut butter
1 McIntosh apple

Easter Mints Kids Can Make

1/3 c Soft butter
1/3 c Light corn syrup
1/2 ts Salt
1 ts Flavoring
3 1/2 c (1 lb) sifted confectioner's sugar
Large bowl
Wooden spoon
Paper plates
Pencils

This is a no-cook recipe the children can mix with their hands. Flavor it with any of the liquid flavorings in the supermarket, such as strawberry and lemon. If you want, you can instead divide it into three portions and add a few drops of food coloring to tint it yellow, red, and green. The knead a small amount of flavoring into each one. This recipe makes about 1 1/2 lbs of candy.

Help the children measure all the ingredients into the large bowl. They can take turns stirring it with the wooden spoon until it becomes too stiff. Then they can knead it with their hands. They should continue kneading until the dough is smooth.

Give each child a paper plate and a pencil. Tell them to turn their plates OVER and write their names on the Bottom to prevent pencil lead from getting on their mints. Help them hold their pencils correctly. Make sure they use upper and lower case letters.

Give each child a portion of dough on his or her plate. The children can pinch off pieces, roll them into balls, and press them lightly with a fork to make a fancy butter mint. Children who cannot roll the candy into balls can make snakes, cut the snakes into pieces, and press the pieces with a fork. They might eat the pieces with the fork, but that's ok too. Leave the mints on the plates and refrigerate them for 30 minutes, until they become firm. Easter Mints taste even better the second day, if you can keep everyone from eating them all on the first day. Cover with plastic wrap and keep them in the refrigerator.

Eyeballs on Ritz

Eggs; hard boiled
Black olives
Ritz crackers
Red food coloring

Cut hard boiled eggs in half lengthwise. Remove yolks and make filling for deviled eggs. Cut out small hole from bottom center of each egg (about 5/8" diameter.) Paint red lines, resembling blood veins, with a toothpick on the eye.

Trim and wash celery and fill with cheese. Top with crackers and serve.

Food for a Hobo Hike

4 cn Tuna (3 oz each)

4 cn Baked beans (6 oz each)

4 Oranges

4 Plastic

4 Bandana clots

4 Children

Place 1 can tuna, 1 can beans, 1 orange, and 1 fork on each bandana. Bring up corners and tie securely. Tie end to children's belt loop or attach to a stick and send them off on their hobo hike.

Pack another hobo pouch for yourself and go along. Make sure someone has a Scout knife with a can opener attachment to open cans (much more fun struggling with one of these things than to take a conventional can opener). The oranges serve as both a drink and a dessert. Poke a hole in one end and after all the juice has been sucked out, open it and eat the flesh. The tuna and beans, of course, are eaten just as they come from the can. The bandanas serve as little tablecloths, napkins, and kerchiefs to be worn back home. Children love this hobo picnic--it's easy for you, nutritious, filling, and fun from them.

Funny Face Carrot Salad

2 carrots
1 small can crushed pineapple
1/2 cup vanilla yogurt
Raisins

Peel carrots. Roll up a few long shavings and save them for "hair" on a final salad. Grate carrots with a grater. Be careful of your fingers. Drain can of crushed pineapples in a strainer, using a spoon to push out the juice. Toss pineapple with carrots, then add vanilla yogurt. Spoon some salad onto a plate. Make a smiling face with raisins. Style carrot "hair", and serve with a smile.

Rock Candy

2 c granulated sugar
Heavy cord
1 c water

Put one cup of water into a small saucepan, pour 2 cups of granulated sugar into the water, heat the water and sugar on the stove over a medium heat, continue stirring until the sugar melts, keep adding sugar and stirring until it melts, stop adding sugar when you see that it will no longer dissolve in the water (that is until you see sugar lying on the bottom of the saucepan). Remove the pot from the stove, let the liquid cool until it is just warm. Pour the liquid into a clean glass jar. Tie one end of a piece of heavy cord around the middle of a pencil. Place the pencil over the top of the glass jar letting the cord fall into the liquid. Crystals will begin to form in a few hours. The next day, remove the cord from the jar, pour the sugar liquid back into the saucepan, reheat and cool it just as you did before. Pour the liquid back into the jar and reinsert the cord with the crystals into it. More crystals will form. If you repeat this procedure every day the crystal candy will grow bigger and bigger. When it has reached a size that pleases you, snip off any excess string and enjoy.

Boogers On A Stick

1 jar cheeze whiz - 8 oz.
green food coloring
25 pretzel sticks
waxed paper
1 long handled spoon
platter

Melt the cheeze whiz in the microwave or on top of the stove, according to directions on the jar. Allow the cheese to cool slightly in the jar. Using a long handled spoon, carefully stir about three drops of green food coloring into the warm cheese, using just enough to turn the cheese a delicate snot green. To form boogers: Dip and twist the tip of each pretzel stick into the cheese, lift out, wait twenty seconds, then dip again. When cheese lumps reach an appealingly boogerish size, set pretzels, booger down, onto a sheet of waxed paper. Allow finished boogers on a stick to cool at room temperature for ten minutes or until cheese is firm. Gently pull boogers off waxed paper and arrange on a serving platter. Serves 5 to 6 booger buddies.

Brains on the Half Skull

2 md Potatoes
8 oz Thin Spaghetti
14 oz Spaghetti sauce

Preheat the oven to 400 degrees. Wash the potatoes and cut them in half crosswise. Place the potatoes cut side up on a baking pan and bake for 40 minutes. While the potatoes bake, prepare the spaghetti in a medium sized pot according to the directions on the package. Then carefully drain the cooked spaghetti in a colander over the sink. A few minutes before the potatoes are ready, begin to heat the sauce (blood) in a small pot. Remove the potatoes from the oven, and scoop out the insides of the potatoes. You won't need the insides for this recipe, the empty shells will serve as the skulls. When the sauce begins to boil, remove it from the heat and combine it with the cooked spaghetti to make brains. Put a scoop of bloody brains in each skull.

Butchered Snake Bits With Barbecue Sauce

- 1 Package rigatoni pasta -- (10oz)
- 2 Cans squirtable cheese spread
- 1 Small Jar barbecue sauce
- 16 Whole black peppercorns -- (16 to 20)
- 1 carrot

Cook pasta according to directions on package. Rinse the pasta in cold water. To make snakes: Covering one end of the rigatoni with your finger (to prevent leakage), carefully fill each piece of pasta with cheese spread. Place six to eight cheese-filled rigatonis end to end on a serving platter, in a realistically curvy snake shape. Using a toothpick, spread lines of barbecue sauce along the top of each snake for markings. To form heads, use barbecue sauce to glue two black peppercorn eyes onto the end opposite the tail of each snake. Wash, dry and carefully peel skin off carrot. When completely clean of skin, make one more peeling for each snake you have formed. At the narrow end of each peel, carefully cut out a long, thin triangle. These are your snakes forked tongues. Position tongues.

Cat Litter Casserole

1 c Bisquick
1 c Shredded Cheddar cheese
1 lb Ground beef, turkey or pork
Sausage

---TO MAKE LITTER---

2 c Long grain rice
3 3/4 c Water
2 ts Salt
2 tb Butter or margarine

--TOOLS--

lg Mixing bowl
Rectangular baking pan
Deep saucepan with lid
Fork
Paper towels
lg Spoon
Stainless steel pooper scooper

To make dumps: With an adult's help, preheat the oven to 350 degrees F. Using clean hands, mix together the dump ingredients in a large bowl. Mold pieces of this mixture into various size/shape dumps. Place so they don't touch each other in an ungreased baking pan. Use two if they don't all fit. With an adult's help, bake the dumps for about 20 minutes or until they are all brown, firm and slightly crusty. While the meat cooks, put all four litter ingredients into a large saucepan. Then, with an adult's help, heat on high until the water comes to a boil. Stir, turn heat to low and cover the pan. Simmer without lifting the cover for fourteen minutes. With an adult's help, remove the saucepan from the stove and carefully (to avoid having your face melted away by the steam), lift off the cover. Break apart, or "fluff" the rice with a fork and set pan aside. When dumps are done, carefully transfer them onto paper towels to drain. Spoon the rice and dumps into the now empty baking pan, leaving some dumps partially uncovered, the way Kitty does when he/she is in a hurry. Serves 8-10 litterbox lovers. Use pooper scooper to serve.

Chicken Pox Pancakes

Strawberries
Pancake mix
Bananas
Powdered sugar
--TOOLS--
Knife
Cutting board
Mixing bowl
lg Flat skillet
Spatula
Plates

With an adult's help, chop the berries into small chunks, allowing one or two per pancake face. Set aside. With an adult's help, prepare the pancake mix according to package directions. When the pancakes are done, place each serving in a stack on a separate plate. For every two stacks of pancakes, you need to peel one banana. Carefully slice off the two ends and put one on top of each stack for a nose. Then cut two thin slices from each end for eyes. Then cut banana in half for a long curved mouth. Arrange the strawberry chunk chicken pox all around each face. Use clean fingers to drop a pinch of powdered sugar on each pox for a tasty bit of pus. Serves as many little polka dotted people as your heart desires.

Chopped Off Fingers Pizza

1 cn (10 1/2oz) chicken with rice Soup
Blue and green food Colorings
1 c Fish shaped crackers

--TOOLS--

Knife
Cutting board
lg Saucepan
Spoon
Soup ladle
4 Soup bowls

With an adult's help, chop the celery heart into small pieces. Using clean hands, pull apart the surrounding whitish leafy stalks, leaving them long and stringy; these celery pieces will be your seaweed. Set aside. Drain the jar of artichoke hearts and cut into the size of a penny. Prepare soup according to directions. Add the celery and artichokes and heat until soup comes to a boil. Turn heat to low and carefully add two or three drops each green and blue food coloring until the soup reaches an appropriately murky seawater color. Carefully ladle the hot soup into individual bowls and sprinkle a quarter cup of crackers on top of each one. Encourage some of the floating celery seaweed to hang over edge of bowls and serve. Artichoke pieces and rice from the soup will sink.

Diaper Dump Porridge

1 cn (10 oz) beef broth
1 Tube refrigerated biscuits
1 cn (10 oz) chicken broth
--TOOLS--
2 sm Saucepans
Knife
Slotted spoon
Soup ladle
4 Soup bowls

Pour the beef broth into a saucepan. Set aside and don't add any water. Remove the biscuits from the tube, separate them and carefully cut each one in half. Then, using clean hands, sculpt the biscuit pieces into "dump" shapes. Add the dumps to the beef broth. With an adult's help, place the dumps and broth over medium heat and cook until the mixture comes to a boil. Turn the heat to low, cover the pan with a lid and simmer for 15-20 minutes. Carefully check the broth level often. Pour the chicken broth (diaper fluid) and one can water into the second saucepan. With a slotted spoon, carefully transfer the cooked dumps from the beef broth and place in the chicken broth pan. Heat chicken broth according to the directions on the can.

Sicko serving suggestion: When you're done eating, place a container of baby wipes on the table for guests to clean up with!

Flat Cat Cookies

1 pk (20oz) refrigerated sugar Cookie dough
1 tb To 2 flour
Red cinnamon candies
Seedless strawberry jam
--TOOLS--
Rolling pin
Butter knife
Spatula
Cookie sheet
2 Spoons
Wire cooling rack

With an adult's help, preheat oven to temperature specified on package. Sprinkle flour on a clean, flat surface and roll out cookie dough slightly thicker than what the package calls for. Then, using butter knife, cut out cookies in the shape of a flattened cat. Use a large spatula to carefully transfer cookies to cookie sheet. Bake according to package directions. While they're cooling, count out enough cinnamon candies to put two eyes and a nose on each cat. Carefully flatten between the front and back of two spoons and set aside. Allow the cookies to cool on the cookie sheet for about 3 minutes and then press in eyes and nose. Transfer to wire rack to continue cooling. Dribble jam here and there on each cookie for blood. Makes approximately 3 dozen kitty road kill.

Sicko serving suggestion: Instead of making each cookie in a perfect cat shape, make a few that are missing a limb and/or tail. Why not even sever a head or two? Drip jam blood at stumps for an authentically dismembered look.

Getting & Staying Healthy - Naturally!

The human body is a highly complex mechanism. Body or physical health refers to the overall condition of that system. We say that **optimal physical health** is achieved when the body is free from disease, abnormality and injury, and is able to function well.

However, often the body does not function well when it is attacked by environmental elements, genetic malfunction, injury, and biological intrusions. These factors can result in a multitude of ailments that affect the thyroid and adrenal glands, as well as the liver and pancreas. They can cause damage to the respiratory system (bronchitis, asthma, etc), hinder digestive processes, and even cause cancer.

Whether you're a parent or child, man or woman, young or old, staying healthy is very important. **Maintaining an individual's overall wellbeing** can involve treating everything from colds and flu, to cuts and scrapes, and sometimes even embarrassing conditions like bad breath, hemorrhoids, or body odor.

Keeping the right tools on hand (both treatments and information) will **prevent frustration and help in the time of crisis**; even if the crisis is just a bruised knee from a bicycle fall, a sore elbow from too much tennis, the sniffles, or a quick immunity boost in hopes of avoiding the seasonal cold.

At Native Remedies you will find a comprehensive set of herbal remedies to help you manage and optimize your physical health – naturally and safely.

Two Important Differences in Native Remedies Products

We use the **Full Spectrum Method** of extraction to create our products. Many *so-called natural remedies* are manufactured using standardized extractions which – although often cited as being more scientific method – is not approved by the manufacturers of holistic medicines.

To us, it makes little sense for companies to go the natural route, while being unable to guarantee that their product is free of contamination with chemicals known to be harmful to health! Using the Full Spectrum Method helps us to maintain the integrity, balance and therapeutic effect of herbs with the least risk of side effects or harm to your health!

We utilize a unique **dual-modality approach** to complete holistic wellness because we know that natural medicine works best in combination (herbal, homeopathic, flower essences and tissue salts) for fast relief and long-term care. Our approach provides a complete solution by offering OTC homeopathic remedies for relief of symptoms as well as compound herbal remedies for complete support of your physical, emotional and mental well-being.

While each of our natural remedies works well on its own to address a specific body function or relieve a particular symptom, we believe that by combining our herbal and homeopathic remedies you will find a complete solution that is safe and highly effective.

The importance of Omega-3 fatty acids

Scientists have established the effectiveness of [Omega 3](#) in a number of health areas, including your Heart, Brain, Joints, Skin, Immune system, Vision, and Digestion. Like any product on the market today there are 'good [fish oils](#)' and there are 'bad fish oil'!

With a bad one you may be unwittingly introducing substances into your body that you DO NOT want... such as Mercury and PCB's for example. We impose tougher standards on the purity of our [fish oil](#) than any other known manufacturer. [DHA](#) is the most important fatty acid in the human brain.

High in [DHA](#) and proven to be pure and free of contaminants the [Xtend-Life](#) brand is considered to be the 'Rolls Royce' of concentrated [Omega 3 fish oils](#) at an affordable cost and has been enjoyed by thousands of customers in more than 40 countries for the last eight years.

Don't forget a good multi-vitamin!

[Xtend-Life Multi-Xtra](#) is a natural multi vitamin/supplement using only the finest natural vitamins available on the market today. Some manufacturers call the vitamins they use in their products '[whole food](#)' vitamins, but that is somewhat misleading.

They are natural but they are grown using bio-technology and are not extracted directly from plants. What is important is that we do NOT use [vitamins](#) which are derived from petrochemicals. [Multi-Xtra](#) contains 48 bio-available ingredients.

Unlike a 'normal' multi it contains much more than just a basic vitamin/mineral mix. [Multi-Xtra](#) is probably the best multi vitamin/mineral supplement in the world and undoubtedly provides the best value for money available anywhere.
